PROFILE INFO

I am a hardworking iOS developer who knows how to make good mobile apps. I like to create apps that are easy to use and useful for people. I have experience using Firebase, MapKit, and RESTful APIs. I also build app screens with Swift and UIKit. I like to work with others and turn ideas into real apps.

- German (Basics)

EDUCATION

2023

COMPUTER ENGINEERING

2027

Süleyman Demirel Üniversitesi

3.Sınıfa geçiş yaptım

GPA: 2.21/4.00

EXPERIENCE

2025

SOFTALYA SOFTWARE INC

NOW

iOS Developer Intern

- Develop and implement core iOS application features using Swift and UIKit, aligned with user needs and app goals.
- Integrate Firebase services including Authentication, Firestore, and Storage for secure data and media handling.
- Utilize MapKit and RESTful APIs to build location-aware, data-driven features with responsive UI components.
